Register by	October 13, 2003	
Trip Leader		

Adult Workshop: Learn to create and lead your children in projects with clay! Clay is one of the most responsive and rewarding art materials for children. The focus project is customized to connect with what children are doing in their workshops. Each adult will be given a resource pack and a 25 lb bag of clay to take home. **(You are not required to take this class while your child is in a workshop; if you have a younger sibling, you may want to visit the museum while your child is in class. Admission to the museum is \$5.50 per person.)**

Clay Sculptors (6-10): How do you make a coil pot? What do you do with slip? Clay Sculptors is for children who have worked with clay before and will build on their existing clay experiences while encouraging creative expression and reflection.

Imagining Me (7-10): Look in the mirror, what do you see? Children will explore who they are and what they look like by creating a clay self-portrait. They can discover the shapes, lines and textures in their faces while expanding their clay sculpting skills.

Each child will be able to fire a creation, which will be ready for pick up three weeks after your visit.

These workshops connect to the Oregon Common Curriculum Goals in Science and Art.
